Re: Tucson Electric Power Company  
Docket No. E-01933A-14-\_\_\_\_\_  
Application for Approval of Revised Rider R - 3 for Net Metered Customers

Tucson Electric Power Company ("TEP" or "Company") hereby submits a revised Rider R-3 Market Cost of Comparable Conventional Generation ("MCCCG") Calculation for approval by the Arizona Corporation Commission ("Commission"). Rider R-3 was last approved by the Commission in Decision No. 73771 (May 21, 2013) and sets the MCCCG to be used in conjunction with Rider-4 NM PRS, Net Metering for Certain Partial Requirements Services. TEP proposes to revise the MCCCG rate to update the anticipated avoided cost to be used for the Annual Credit for Excess Generation as defined in Rider-4 NM-PRS. A clean and redlined version of page 2 of the TEP Statement of Charges, which shows the rate, is attached.

The proposed MCCCG rate of \$0.026660 per kWh *increases* the MCCCG rate in Rider R-3, which will have the effect of increasing the Credit for Excess Generation under the Company's Rider-4 NM-PRS. This credit is calculated and applied in the customer bill produced in October (September usage) or on a customer's "Final" bill.

TEP requests that the Commission approve the revised Rider R-3 to become effect on April 1, 2014. If you have any questions, please contact Jessica Bryne at (520) 884-3680.

Sincerely,

Kimberly A. Ruht
